GRUB SCREW RANGE AES AND AS

Product Range:	AES & AS
Stock Number:	N/A
Release Date:	28 th November 2025

Feature:

Grub screw contact options have now been introduced to our AES and AS ranges. Each contact will be supplied with special flat-point stainless steel grade 316 grub screws, providing superior corrosion resistance against moisture and other environmental factors. This enhances cable longevity and overall reliability. The flat-point design also minimizes the risk of copper strand damage during installation. This essential component ensures secure and safe electrical connections. This is for use in Non-Ex environments only.

Please refer to the table below for all compatible restrained ranges available.
