

PNA - Product Notification Alert

TRANSITION TO NEW LIVE LINE INSULATOR

Product Range:	High Voltage
Product Stock Code:	N/A
Release Date:	6 th March 2026

Feature:

**Discontinued
Non Live Line Insulator**

**Replacement
Live Line Insulator**

AusProof's commitment to innovation continues to drive advancements that meet and exceed industry expectations. As part of this ongoing development, we are pleased to announce the introduction of our newly designed Live Line Insulators across the entire open-cut range.

Non Live Line Insulators have now been discontinued. Their replacement is the new Live Line Insulator, which will be supplied for all orders—including where previous Part Numbers for Non Live Line versions are referenced.

Importantly, the new Live Line Insulators are fully compatible with existing Non Live Line bodies, ensuring seamless integration for maintenance, repairs, and rebuilds of older couplers when required.

This change reflects our ongoing commitment to product improvement, safety, and operational efficiency, while maintaining full backward compatibility for our customers' installed equipment.

Please refer to the Replacement Cross-Reference Table below:
